

PBI Mobile Fingerprint Scanner for Suspect Identification and Verification

Location of Assignment	Dhaka, Bangladesh
Client	Police Bureau of Investigation (PBI), Bangladesh Police
Reference Contact	Deputy Inspector General Email: sspa_f.pbi@police.gov.bd Phone: 02-9615721
Contract Value	BDT 4,825,000.00
Period of Activity	May 2021 to June 2021
Status	Completed
Nature of Work	The project scope included, but not limited to, supply and commissioning of required number of Mobile Fingerprint Scanners for Instant Identification of the suspects and/or criminals, along with necessary software. Scope also included the installation and configuration of the components supplied so that PBI officials can seamlessly use them both at crime scene using the handheld devices, and in office using the workstations or laptops, as well as matching the captured data against the NID database to verify the identity of individuals. The system is capable of matching with BEC national citizen database of over 100 million records and instantly view the NID information on screen through 1:N fingerprint match. PBI is also using the system for surveillance and access control inside their Headquarters for visitors.
